RETURNS

Each and every call in the **MURF'S MALLARD** line is individually and primarily handmade, tuned and tested to provide superior performance. Therefore, we reserve the right to inspect any call claimed to be defective. Any call determined to be defective due to workmanship will be replaced immediately. For calls determined to be damaged due to customer use, such as internal or external pressure, an estimate for repair or replacement will be provided.

We are very proud of the superior sound and workmanship that goes into each and every call we make, therefore, we hope the same care and pride will be evident in their use. These are exceptional calls, made to be used, not abused. The more care your call receives, the better it will sound, and the longer it will last. Thank you and happy hunting!
